
What type of activity is it?

Past contrast
(tense decision in text)

Form construction
(tense is given)

What type of tense is it?

Pretérito perfecto
Expected: aux_token + part_token

Status:
Structure
Auxiliary
Person/Number
Participle

Are both pieces present?
(token_count = 2)

yes

[STRUCTURE_COMPLETE]

Status:
Structure = ✅

AUX_TOKEN
first token of the answer

Is it a valid form?
("he","has","ha","hemos","habéis","han")

yes

[AUX_VALID]

Status:
Auxiliary = ✅

Is p/n correspondance correct?
(1s: "he" / 2s: "has" / 3s: "ha" /
1pl: "hemos" / 2pl: "habéis" / 3pl: "han")

yes

[AUX_P/N_VALID]

Status:
Person/Number = ✅

PART_TOKEN
second token of answer
two types: part_token_irreg OR part_token_reg

part_token_irreg

Is it a valid form?
(part_token_irreg = expected irregular)

yes

[PART_IRREG_VALID]

Status:
Participle = ✅

CORRECT!

no

[PART_IRREG_INVALID]

Status:
Participle = ❌

- **Highlight:** all participle_token

- **Hint:** "Agh, it's one of those. This verb uses an **irregular participle**. Try to recall its special form."

part_token_reg
Expected: part_stem + part_ending

part_ending
last three letters of the input

Is it correct?
("-ado" when infinitive_form ends with -ar
AND
"-ido" when infinitive_form ens with -er/-ir)

yes

[PART_ENDING_VALID]

part_stem
all letters before part_ending

Is the part_stem correct?
(= infinitive_form without last 2 letters)

yes

[PART_STEM_VALID]

Status:
Participle = ✅

CORRECT!

no

[PART_STEM_INVALID]

Status:
Participle = ❌

- **Highlight:** all letters before part_ending

- **Hint:** "Nice! You've got the key part, the ending. Now use the **infinitive without the last two letters** before it."

no

[PART_ENDING_INVALID]

Status:
Participle = ❌

- **Highlight:**
  - if input ends with *-ado* or *-ido*: last 3 letters
  - if input ends with *-ando*: last 4 letters
  - if input ends with *-iendo*: last 5 letters
  - else:
    - if input ends with *vowel*: last 1 letters
    - if input ends with *consonant*: last 2 letters

- **Hint:** "Quick check: Regular participles end in **-ado** (-ar) or **-ido** (-er/-ir). Which one fits here?"

no

[AUX_P/N_INVALID]

Status:
Person/Number = ❌

- **Highlight:** all letters after "h"

- **Hint:**
  - gustar-type verb: "Close! This is a gustar-type verb. The verb agrees with **what causes the feeling**, not with who experiences it."
  - else: "Close! The *haber* form has to match the subject. Recheck who is doing the action."

no

[AUX_INVALID]

Status:
Auxiliary = ❌

Is it an "haber" attempt?
(begins with "ha" or "he")

yes

[AUX_INVALID_ATTEMPT]

- **Highlight:** aux_token

- **Hint:** "Almost! The helper verb must be a **valid present form** of *haber*. Try to recall it, it's a small set."

no

[AUX_INVALID_NO_ATTEMPT]

- **Highlight:** aux_token

- **Hint:** "Quick check: in pretérito perfecto, the helper verb is **HABER**, not another verb."

no

[STRUCTURE_INCOMPLETE]

Status:
Structure = ❌

- **Highlight:** all placeholder

- **Hint:** "Careful! Pretérito Perfecto needs **two parts:** helper verb + participle."

Indefinido
3 types

indef_full_irreg
two types: A or B

Status:
Form
Person/Number

Is it a valid form?
indef_full_irreg_A: "di", "diste", "dio", "dimos", "disteis", "dieron"
indef_full_irreg_B: "fui", "fuiste", "fue", "fuimos", "fuisteis", "fueron"

yes

[INDEF_FULL_IRREG_VALID]

Status:
Form = ✅

Is p/n correspondance correct?
indef_full_irreg_A --> 1s: "di" / 2s: "diste" / 3s: "dio" / 1pl: "dimos" / 2pl: "disteis" / 3pl: "dieron",
indef_full_irreg_B --> 1s: "fui" / 2s: "fuiste" / 3s: "fue" / 1pl: "fuimos" / 2pl: "fuisteis" / 3pl: "fueron"

yes

[INDEF_FULL_IRREG_P/N_VALID]

Status:
Person/Number = ✅

CORRECT!

no

[INDEF_FULL_IRREG_P/N_INVALID]

Status:
Person/Number = ❌

- **Highlight:**
  - indef_full_irreg_A --> all letters after "d"
  - indef_full_irreg_B --> all letters after "fu"

- **Hint:** "Close! Now it just has to match the subject. Recheck who is doing the action."

no

[INDEF_FULL_IRREG_INVALID]

Status:
Form = ❌

- **Highlight:** all indef_full_irreg

- **Hint:**
  - indef_full_irreg_A: The **traitor**... Ends with "-ar", but it behaves as if it was and **"-er/-ir" verb**...
  - indef_full_irreg_B: This is **THE irregular** that has to be memorised. It's the same for "ir" and "ser". It starts with "fu"...

indef_stem_irreg
Expected: irreg_stem + irreg_ending

Status:
Stem
Tense ending
Person/Number

irreg_stem
first letters of the input

Is it correct?

for "hacer" 3s

irreg_stem = "hiz-"

yes

[IRREG_STEM_HACER_VALID]

Status:
Participle = ✅

no

[REG_CHANGE_STEM_HACER_INVALID]

Status:
Stem= ❌

- **Highlight:**
  - if input ends with *vowel*: all letters except the last 1
  - if input ends with *consonant*: all letters except the last 2

- **Hint:** "One of those tricky ones with an **irregular stem**. Do you remember how it changes from the infinitive? **Tiny spelling detail:** in 3rd person singular, *hacer* uses a special spelling in the indefinido."

for else

irreg_stem = expected irregular stem

yes

[IRREG_STEM_VALID]

Status:
Participle = ✅

no

[IRREG_STEM_INVALID]

Status:
Stem= ❌

- **Highlight:**
  - if input ends with *vowel*: all letters except the last 1
  - if input ends with *consonant*: all letters except the last 2

- **Hint:** "One of those tricky ones with an **irregular stem**. Do you remember how it changes from the infinitive?"

irreg_ending
last letters of the input

Is it a valid form?
input ends with: "-e", "-iste", "-o", "-imos", "-isteis", "-ieron", "-eron"

yes

[IRREG_ENDING_VALID]

Status:
Ending = ✅

Is the p/n correspondance correct?
1s: -e, 2s: -iste, 3s: -o, 1pl: -imos, 2pl: -isteis, 3pl: -ieron/-eron

yes

for 1s, 2s, 3s, 1pl, 2pl

[IRREG_ENDING_P/N_VALID]

Status:
Person/Number = ✅

CORRECT!

for 3pl

irreg_default_stem

irreg_j_stem

Does it match with the type of irreg_stem?
for IRREG_DEFAULT_STEM --> 3pl: -ieron
for IRREG_J_STEM --> 3pl: -eron

yes

[IRREG_ENDING_P/N_3PL_VALID]

Status:
Person/Number = ✅

CORRECT!

no

[IRREG_ENDING_P/N_3PL_INVALID]

Status:
Person/Number = ❌

- **Highlight:** input's irreg_ending (-ieron, -eron)

- **Hint:** "Watch out with 3rd person plural in this irregular-stem group: it's usually **-ieron**, but some switch to **-eron**.

no

[IRREG_ENDING_P/N_INVALID]

Status:
Person/Number = ❌

- **Highlight:** input's irreg_ending (-e, -iste, -o, -imos, -isteis, -ieron, -eron)

- **Hint:** "Close! Now it just has to match the subject. Recheck who is doing the action."

no

[IRREG_ENDING_INVALID]

Status:
Tense ending = ❌

- **Highlight:** all letters after irreg_stem

- **Hint:** "Nearly. You've got the trickiest part, the stem. Now the ending: there's a **specific pattern** for this irregular-stem group. Remember?"

indef_reg
Expected: reg_stem + reg_ending

Status:
Tense ending
Person/Number
Stem

reg_ending
last letters of the input

Is it a valid form?
infitive_form ends with -AR: "-é", "-aste", "-ó", "-amos", "-asteis", "-aron"
infitive_form ends with -ER/-IR: "-í", "-iste", "ió", "-imos", "-isteis", "-ieron"

yes

[REG_ENDING_VALID]

Status:
Ending = ✅

Is the p/n correspondance correct?
infitive_form ends with -AR --> 1s: -é / 2s: -aste / 3s: -ó / 1pl: -amos / 2pl: -asteis / 3pl: -aron
infitive_form ends with -ER/-IR --> 1s: -í / 2s: -iste / 3s: -ió / 1pl: -imos / 2pl: -isteis / 3pl: -ieron

yes
